Welcome to the ACC Logistics Readiness Training Center

Welcome . . .

I would like to personally welcome you to the Air Combat Command Logistics Readiness Training Center. Our mission is to continuously satisfy our customers' needs through quality, up-to-date, and professional command aircraft maintenance classroom instruction. We are dedicated to this cause in our continued pursuit for excellence.

When you arrive, you'll find we are not your typical military schoolhouse. Not only do we pride ourselves on maintaining the highest standards in curriculum, we also take care of many customer needs. We make personal phone calls to welcome you to our school and provide you with information for your arrival; we reserve billeting, and offer contracted GSA vehicles for transportation; all supplies needed during the course are provided.

Our faculty is the most professional and knowledgeable group of individuals you will ever have the pleasure of meeting. They have the experience and ability to help each and every student achieve their desired learning outcome. Group interaction is our cornerstone of quality.

The academic challenge every student experiences here will not only provide valuable tools for your unit to meet its mission, but will help each student succeed professionally. The student's role is to receive the information given and then process it to further hone their skills.

SMSgt Terrance D. Prymek
Superintendent

ACC LOGISTICS READINESS TRAINING CENTER

OUR HISTORY

With the reorganization of SAC and TAC into the Air Combat Command, 1992 was a year of major changes. In December 1992, personnel and curriculum from the 436th Strategic Training Squadron, SAC Maintenance University, Carswell AFB, TX and the 325th Logistics Support Squadron, Automation Management Training Center, Tyndall AFB, FL transferred to the 388th Maintenance Training Flight at Hill AFB, UT.

This new section established itself as the ACC Maintenance Schoolhouse, assuming the responsibility of providing quality instruction for ACC aircraft maintenance personnel in March 1993.

In October 1994, another reorganization effort created another major change. The 388 MTF was deactivated for ACC, and reactivated as the AETC Training Support Squadron. The ACC Maintenance Schoolhouse teaches *command-level* information, so it stayed in ACC and was transferred to the 388th Logistics Support Squadron, Hill AFB, UT.

After conducting a process analysis, it was determined that the ACC Maintenance Schoolhouse would be realigned under HQ ACC as an Operating Location under HQ ACC Logistic Support Group. On 1 October 1995, the ACC Maintenance Schoolhouse became the ACC Logistics Readiness Training Center.

TODAY

The ACC Logistics Readiness Training Center takes its operational and administrative direction from HQ ACC/LGQT. Due to the geographic separation from HQ ACC/LGQT, we still rely on the 388 LSS for some administrative support. Everyone in the organization is more than willing to help make each student's time here rewarding and enjoyable.

Training Center POLICIES AND PROCEDURES

ACCREDITATION STATEMENT

The ACC Logistics Readiness Training Center is affiliated with the Community College of the Air Force (CCAF). As an accredited school, we proudly share in the system-wide accreditation of CCAF. Graduates of our courses may receive college credits applicable to the CCAF certificate and degree programs.

ACADEMIC FREEDOM

Our courses emphasize student participation and instructor interaction. We employ every instructional method so students can learn through guided and purposeful activities. We use a "Learn by Doing" approach. Students are given opportunities to question and comment in a friendly, relaxed atmosphere without fear of embarrassment or threat. Value-added cross talk is the inevitable result.

Our instructors know their successes and failures are measured by the progress and productivity of their students. They guide activity toward tangible results by minimizing strife, tension, and frustration. Our methods create an environment conducive to effective learning and better knowledge retention.

RECORDS RELEASE

Academic records will only be released upon written request. Requests for verification of course completion for CCAF credit must be submitted through the Base Education Office.

COURSE SCHEDULING PROCESS

Limited resources and classroom availability drive our scheduling process. Due to the high demand, we must be selective in our scheduling so that all customers are given equal treatment.

In order to provide the best possible product we use the following procedures:

Step 1: Request for student backlog from all LSS/LTFs.

Step 2: Inputs received and training schedule developed, slots are given to those units requesting our courses.

Step 3: Units respond with student names to fill allocated slots.

Step 4: Confirmation message sent to LSS/LTFs identifying scheduled students along with reporting instructions, etc.

Once a student is scheduled for a particular course, that particular LSS/LTF can send a different student, provided we are informed by FAX or E-Mail no later than two weeks before the class starts.

COURSES OFFERED

We offer seven-command-level, ACC specific courses geared towards the aircraft maintenance arena. All are taught here at Hill AFB, and are funded by HQ ACC/LGQT for ACC students. On occasion we receive requests for slots from other commands or Guard/Reserve units. For units outside ACC, funding must be provided by their own command.

The following is a brief synopsis of each course we teach. For additional information please refer to AFCAT 36-2223 or <https://etca.keesler.af.mil/>

Y140009

ACC PRODUCTION SUPERINTENDENT

(5 Days)

Class Size: 16 Students

CCAF Credit Hours: 2

INSTRUCTOR: SMSgt Terrance D. Prymek and MSgt Ronald V. Gable

Intended for experienced aircraft maintenance Senior NCOs in the grades of Technical Sergeant or higher currently filling one of the following positions: Production Superintendent, MOC Senior Controller, or Flightline Expediter.

NOTE: Priority for course quotas will be given to personnel projected or filling Pro-Super and/or MOC Senior Controller positions.

SYNOPSIS: This course provides valuable information needed by Production Superintendents to more effectively manage a flightline under a decentralized concept. Curriculum includes: Aircraft Maintenance Leadership and Organizational Structure, Aircraft Scheduling, Aircraft Status (MESL), Conventional Generation Management Planning and Execution, HHQ Inspections, Disaster Preparedness, and MSD Stock Fund Management. Highlights include: exchange of ideas and experiences between students with varying backgrounds, and a guest lecturer speaking from a personal ideology on aircraft maintenance.

REGISTRATION: Classes are conducted approximately eighteen times per fiscal year at Hill AFB, Utah. Information on class start dates or quota requests must be made through your Unit Training Manager/LTF Scheduling Element. They, in-turn, will contact us for coordination.

Y140015

ACC MAINTENANCE INSTRUCTOR

(10 Days)

Class Size: 10 Students

CCAF Credit Hours: 5

INSTRUCTOR: MSgt Walker R. McCurdy

Intended for personnel in any grade or AFSC performing stand-up instructor duties.

SYNOPSIS: Qualifies ACC Maintenance Instructors. Instruction is geared to specific tasks and knowledge required to teach principles and applications in maintenance training situations. The course covers various teaching methods and techniques; how people learn and communicate; ways to evaluate learning; and reasons for evaluation. Problem solving, interpersonal relationships, and communications skills are integrated throughout. Instructional Systems Development (ISD) and instructional techniques and principles are also taught. Students are given the opportunity to apply techniques learned through practical exercises.

REGISTRATION: Classes are conducted approximately eighteen times per fiscal year at Hill AFB, Utah, and at TDY locations when requested. Information on class start dates or quota requests should be made through your Unit Training Manager/LTF Scheduling Element. They, in-turn, will contact us for coordination.

Y140018

ACC PLANS, SCHEDULING, AND DOCUMENTATION

(10 Days)

Class Size: 6 Students

CCAF Credit Hours: 4

INSTRUCTOR: TSgt Sherry A. Ellis

Intended for 5 skill level aircraft schedulers in any grade with 6 to 24 months experience.

SYNOPSIS: Prepares Maintenance Management Technicians assigned to Operations Squadron (OS) and Operations Support Squadron (OSS) PS&D sections to effectively and accurately schedule and document the unit's aircraft through all phases of maintenance. Knowledge and skills needed to schedule and document all aircraft maintenance and operational requirements is taught and reinforced. Applicable directives and publications are correlated with course content. Problem solving exercises are integrated throughout the course, allowing students the opportunity to apply their new skills and knowledge.

REGISTRATION: Classes are conducted approximately twelve times per fiscal year at Hill AFB, Utah. Information on class start dates or quota requests should be made through your Unit Training Manager/LTF Scheduling Element. They, in-turn, will contact us for coordination.

Y140019

ACC ENGINE MANAGEMENT

(10 Days)

Class Size: 6 Students

CCAF Credit Hours: 5

INSTRUCTOR: TSgt Benjamin F. Price

Intended for engine management (EM) personnel in any grade, with a minimum 5-skill level and at least six months experience.

SYNOPSIS: This course is designed to prepare EM personnel to effectively and accurately schedule engines and associated components for maintenance; correctly document and maintain engine record files; and effectively coordinate information needed by Engine Management and other agencies. Applicable ACC directives and publications are correlated with course content. Students will maintain and update CAMS and CEMS databases. Problem solving exercises are integrated throughout the course, allowing the students the opportunity to apply their new skills and knowledge.

REGISTRATION: Classes are conducted approximately ten times per fiscal year at Hill AFB, Utah. Information on class start dates or quota requests should be made through your Unit Training Manager/LTF Scheduling Element. They, in-turn, will contact us for coordination.

Y140020

ACC MAINTENANCE TRAINING MANAGEMENT

(10 Days)

Class Size: 10 Students

CCAF Credit Hours: 4

INSTRUCTOR: TSgt Ray VonCannon and MSgt David L. Peters

Intended for Education and Training personnel in any grade working in the Logistics Training Flight, within 12 months of assignment.

SYNOPSIS: This course provides required management training techniques to assist the technician in making effective decisions on the job. Course content includes: the duties and responsibilities of unit training managers and scheduling element personnel, as well as the flight's overall purpose. Applicable ACC directives and publications are correlated with course content. Problem solving exercises, and communicative skills are integrated throughout the course. Students will have the opportunity to apply their new skills and knowledge in a classroom environment.

REGISTRATION: Classes are conducted approximately twelve times per fiscal year at Hill AFB, Utah. Information on class start dates or quota requests should be made through your Unit Training Manager/LTF Scheduling Element. They, in-turn, will contact us for coordination.

Y140021

ACC INSTRUCTIONAL SYSTEMS DESIGNER

(5 Days)

Class Size: 10 Students

CCAF Credit Hours: 2

INSTRUCTOR: MSgt David L. Peters and TSgt Ray VonCannon

Intended for Education and Training personnel, in any grade, working in an LTF curriculum development element.

SYNOPSIS: It provides required Instructional Systems Development (ISD) procedures to help the technician make effective decisions on the job. Training includes: use and application of the ISD process; identification of a training need; Development Element responsibilities and office requirements. Applicable ACC directives and publications are correlated with course content. Problem solving exercises and communicative skills are integrated throughout the course. Students will have the opportunity to apply their new skills and knowledge in a classroom environment.

REGISTRATION: Classes are conducted approximately twelve times per fiscal year at Hill AFB, Utah. Information on class start dates or quota requests should be made through your Unit Training Manager/LTF Scheduling Element. They, in-turn, will contact us for coordination.

Y140025

ACC FLIGHTLINE MAINTENANCE OFFICER

(5 Days)

Class Size: 12 Students

CCAF Credit Hours: (Not Applicable to Officers)

INSTRUCTOR: SMSgt Terrance D. Prymek and MSgt Ronald V. Gable

Intended for Lieutenants and Captains who have completed both Aircraft Maintenance Officer Course (AMOC) and the Maintenance Officer Orientation Training Program (MOOTP) with 3 to 36 months experience on the flightline.

SYNOPSIS: This course provides valuable information needed by Aircraft Maintenance Officers to more effectively manage a flightline under a decentralized concept. Curriculum includes Flight Organization and Leadership, Roles and Responsibilities, Aircraft Scheduling and Scheduling Effectiveness, Aircraft Status (MESL), Conventional Generation Management Planning and Execution, MSD Stock Fund Management, Supply, and other maintenance programs. Highlights include an exchange of ideas and experiences between students with varying backgrounds.

REGISTRATION: Classes are conducted approximately eight times per fiscal year at Hill AFB, Utah. Information on class start dates or quota requests must be made through your Unit Training Manager/LTF Scheduling Element. They, in-turn, will contact us for coordination.

DISENROLLMENT POLICY

AFCAT 36-2223 gives us authority to disenroll students for failure to meet the objectives of our courses, and/or failure to meet Air Force standards. Additional information can also be found later in this brochure under "Procedures for Release".

STUDENT RELEASE PROCESS

The ACC Logistics Readiness Training Center faculty is empowered to make all decisions regarding student release. A student can be released for any of the following reasons:

ADMINISTRATIVE:

Hardship or Medical

ACADEMIC:

Written Test Failure

DISCIPLINARY:

Hostile or antagonistic behavior, non-participation, lack of interest, misconduct, military or civilian punitive actions taken while enrolled.

PROCEDURES FOR RELEASE

ADMINISTRATIVE

The instructor is responsible for verifying hardship or medical concerns. They will contact the following organizations:

Medical problems require hospital verification.

Hardship concerns require Red Cross verification. If a student feels their problem is severe enough, they should bring it to the attention of the instructor. The instructor will brief the First Sergeant who coordinates with the Red Cross to determine the extent of the emergency.

ACADEMICS

If a student fails a proficiency test, the instructor counsels the student to decide if a retest is warranted. If a retest is given, the student will first be entered into remedial training. If they pass the retest, they will receive a course completion certificate. If the student fails the retest or a retest is not granted, the student will be released without graduating.

When a student is released for not meeting the objectives of the course, the superintendent will coordinate with the student's unit along with a statement of events.

DISCIPLINARY

Student disciplinary problems will not be tolerated. We believe all students are highly professional team members. With that in mind, we envision never having to exercise this option; however, these situations may occur. When and if they happen, we will follow appropriate channels depending on the severity of the circumstances.

Again, if a student is released for disciplinary reasons, the superintendent will coordinate with the student's unit and send a statement of events.

RE-ADMISSION POLICY

Students released for administrative reasons can be rescheduled whenever they are once again available to attend class. If a student has been released for academic reasons, they can be rescheduled to attend the course anytime after 6 months has passed. Those students released because of disciplinary problems will not be re-admitted.

STUDENT INFORMATION

STUDENT PROBLEM RESOLUTION

Most problems can be solved within the Training Center if students talk to their instructor or another faculty member. If a student feels someone outside the center would be better able to handle their concerns, the 388th LSS First Sergeant or Commander are available at all times.

For persistent non-academic problems, students can seek help from the following agencies outside the organization at Hill AFB:

Military Equal Opportunity5-6722

Family Support Center.....7-4681

Mental Health7-7909

Base Chaplain7-2106

Legal Office7-6625

Military Pay7-1851

STUDENT REPORTING INFORMATION

If you're flying into Salt Lake International Airport, Hill AFB is approximately 30 miles north on I-15. You are responsible for making arrangements for transportation by contacting Hill AFB Base Taxi at DSN: 777-1843 (commercial 801-777-1843). This must be done at least 24 hours before arrival so that you can give them your flight information. They can also provide transportation back to the airport when you leave.

If you're arriving by POV, make sure your vehicle has a valid USAF registration sticker. If not, you'll have to get a temporary pass here at Hill AFB. To obtain a temporary pass you must have proof of both car registration and insurance with you. At any time of the year it's a good idea to ensure your vehicle is in good working order. Winters are cold and roads are icy with large accumulations of snow. Summers are hot and dry. Please observe all posted speed limits while here. Traffic and driving-while-intoxicated laws are strictly enforced by the local authorities.

Whether you're driving or flying into the Salt Lake City area, plan your arrival one day prior to the starting of class. For students stationed in CONUS, arriving at Hill AFB any earlier may be charged as leave.

Transportation while TDY will be provided by the training center. For your convenience we have contracted a GSA van for your class to drive while you are here.

BILLETING INFORMATION

Billeting will be reserved by the Training Center for your stay at Hill AFB. Usually you will be staying on-base at the Mountain View Inn located on D Avenue across from the Military Personnel Flight. In case you need to contact them their phone number is: DSN 777-1844 (commercial 801-777-1844). (Billeting reservations are made as a "group" reservation, so billeting may not have you listed by name.)

TRAVEL AND RELATED COSTS

Students attending courses at the ACC Logistics Readiness Training Center are normally required to be TDY from their home station for a certain period of time. The TDY can be as short as six days or as long as 20 days. Good preparation will help make your trip much more effective and manageable.

The process begins when you are chosen to attend one of our available courses. Your name and reporting instructions are sent to each Logistics Training Flight, and should be forwarded to you. The reporting instructions are used by your unit to print your travel orders. Since our courses are ACC funded, there will also be a fund cite for the applicable course.

Where you stay will of course, be determined by billeting availability. We will try to let you know where you will be billeted in plenty of time so you can be better prepared. Please have your orders processed as being billeted on-base. The statement, "All government meals and quarters are available and directed".

If you are authorized Non-Availability, bring a copy of your travel orders to the front desk at billeting. The clerk will keep the orders, and sign a Non-Availability letter and give it to you. The letter is necessary for you to receive the proper pay when you process your travel voucher at your home station. Whatever you do, don't leave until you get the Non-Availability letter!

HILL AFB FACILITIES

HILL AFB FACTS

Hill AFB is situated in the population center of Utah. It is located about 35 minutes north of Utah's capital city, Salt Lake City, via Interstate 15. It is about 10 minutes south of Ogden, the second largest city in Utah. Civilian communities adjacent to Hill AFB include Layton, Clearfield, Sunset, Roy, and Kaysville.

Hill AFB, nestled at the foot of the Wasatch Mountains, is ideally located in Northern Utah for climate, scenic beauty, and recreational advantages. The base is in the Mountain Time Zone. Northern Utah is semi-arid with two well defined seasons, summer and winter, and two transition periods, spring and fall. Average daily temperatures vary from 20 degrees Fahrenheit in January to 85 degrees in July. The high and low temperatures on any given day varies about 25 degrees.

The great temperature spread makes even the occasional daily summer temperature of plus 90 degrees not unduly uncomfortable and the evenings pleasantly cool.

The Ogden Air Logistics Center (ALC) is the host organization at Hill AFB. The Ogden ALC is a part of the Air Force Material Command (AFMC). Ogden ALC has important worldwide logistics support responsibilities. It supports the Air Force's fleet of Intercontinental Ballistic Missiles. It has worldwide management for the F-16 and B-2 aircraft.

Other AFMC units on Hill AFB include the 75th Air Base Wing, 75th Security Forces Squadron, 75th Civil Engineering Group, 649th Combat Logistics Support Squadron, Headquarters 75th Communications Computer Systems Group, and the 545th Test Group. Each has a varied mission of logistical support to meet the overall Ogden ALC mission.

Major tenant units on Hill AFB are the 388th Fighter Wing, 84th Radar Evaluation Squadron, and the 729th Air Control Squadron. The 388th Fighter Wing's primary role is air to ground delivery using the F-16 aircraft. The 84th Radar Evaluation Squadron has global responsibilities to optimize radar sensor configurations, quality sensor system capabilities and limitations, and it monitors the development of new radar systems.

NCO CLUB

DSN: 777-3841/3842

Commercial: (801) 777-3841/3842

The NCO Club is located in the East area of Hill AFB, building 450. Facilities include a ballroom, dining room, main lounge, casual bar/lounge, barber shop, a party room, and large outside covered patio. The club offers live and DJ entertainment, and fine dining, including a full breakfast menu.

TDY Air Force members are allowed use of club facilities if they have a membership in their home base NCO Club or produce a copy of their travel orders. Eligibility is open to active duty and retired enlisted members, Airman Basic through Chief Master Sergeant, and civilians GS-2 through GS-9, WS-1 through WS-10, WL-1, through WL-10, and WG-1 through WG-10. For further information give them call.

N and N TRAVEL OFFICE

DSN: 777-4677

Commercial: (801) 777-4677

N&N is co-located within Finance in Bldg 1238, West area, and on the (Military Personnel Flight-side) in the Officer's Club, Bldg 150, in the East area. They offer a full range of travel services. Hours of operation are Monday through Friday, 0730 to 1600 in the West area, and 0930 to 1700 in the East area.

HILLCREST DINING FACILITY

DSN: 777-3428

Commercial: (801) 777-3428

The award winning Hillcrest Dining Facility is located in building 519 in the East area. It's open to all enlisted personnel and operates under the ala-carte system. It's open seven days a week for breakfast, lunch, dinner, and midnight meals. Call them for actual hours of operation.

THORNTON COMMUNITY CENTER

DSN: 777-3525

Commercial: (801) 777-3525

Located in the East area, Bldg 460, the recreation center is open to military members, civilian employees, and their family members age 18 and over. The recently renovated facility includes a game room, lounge with large screen television, stage, ballroom, and "Retreat" snack bar area. The recreation center also takes reservations for the Hillhaus Mountain Ski Lodge, Carter Creek, and Centennial Park.

HUBBARD MEMORIAL GOLF COURSE

DSN: 777-3272

Commercial: (801) 777-3272

A beautiful 18-hole course is open approximately nine months of the year to military and DOD civilians. It includes a full service pro shop, driving range, and putting green. You can rent carts and clubs, and lessons are available. Call ahead for tee time.

MWRS EQUIPMENT CHECKOUT

DSN: 777-2225/9666

Commercial: (801) 777-2225/9666

Located in building 402 on the East side. Fishing, camping, and all types of winter sports equipment are available on a first-come, first-serve basis. Camp trailers, utility trailers, fishing boats, and canoes can be reserved for a small deposit. The facility also houses a full service ski repair and maintenance shop and a retail sales store.

OUTDOOR ADVENTURE PROGRAM

Utah is an outdoor paradise and the Outdoor Adventure Program takes full advantage of Hill AFB's location with activities like canoeing, horseback riding, fishing, skiing, ATV riding, and snowmobiling. Varying degrees of adventure and risk are involved depending on the activity. For more information call Equipment Checkout. For reservations call the Thornton Community Center.

CENTENNIAL PARK

A two acre park available, for a fee, to military, civilians, and their families for individual, family, or organizational functions. Facilities include a pavilion, two gas grills, a sink, pay telephone, restrooms, volleyball, a horseshoe pit, and a soccer field. Reservations are made at the Thornton Community Center.

GERRITY MEMORIAL LIBRARY

DSN: 777-2533/3833

Commercial: (801) 777-2533/3833

Located in building 440 on the East side, the library is open Mondays, 1200-1800 hrs, Tuesday through Thursday, 0900-1800 hrs, and Friday & Saturday, 1000-1800 hrs. It houses over 5,000 volumes of technical, fiction, and non-fiction books for adults and children. Newspapers, magazines, compact discs, video-tapes, audio cassettes, and general reference materials are also available.

ARTS AND CRAFTS CENTER

DSN: 777-2649

Commercial: (801) 777-2649

Located in building 534 on the East side, the Arts and Crafts Center includes a full service picture framing shop, woodworking center, engraving shop, sales store, and ten stall automotive shop. Many classes are also offered.

HESS FITNESS CENTER

DSN: 777-2761

Commercial: (801) 777-2761

The Hill AFB athletic program has a wide variety of indoor and outdoor facilities to meet the needs of intramural, varsity, self-directed, instructional, and special event programs.

The Hess Fitness Center is a modern athletic complex located on the East side, building 520. It is equipped with a Nautilus room, free weight room, and a cardiovascular room with stair-climbers and stationary bikes. The center also boasts five racquetball courts, a full-size basketball court, volleyball court, separate saunas for men and women, and an indoor pool.

Outside the Hess Fitness Center is a quarter mile track, tennis courts, a fitness bubble with two full-size indoor tennis courts and running track, softball/baseball diamonds, soccer field, and a 1 1/2 mile jogging trail. Outdoor swimming pools are located adjacent to the NCO Club and across from the hospital.

A new addition to the West side of the base is the Westside Fitness Center in building 1277. The center has state-of-the-art Sprint exercise machines, stationary bikes, rowing machines, Universal machines, co-ed sauna, and separate shower and locker facilities. For more information call the Hess Fitness Center.

BOWLING CENTER

DSN: 777-9911

Commercial: (801) 777-9911

Located in building 525 on the East side of the base is one of the finest bowling centers in the Air Force. It features 20 Murrey Pathfinder Lanes with AMF AccuScore computerized scoring system. Also new at the bowling center is an AMF Bumper Lane, a ball deflection system that guarantees even the youngest bowlers can knock down pins. The bowling center is open seven days a week and features a snack bar, pro shop, and amusement arcade.

BASE RESTAURANTS

Hill AFB has 12 restaurants located all over the base. The Crosswinds, next to the Military Personnel Flight building, has its own bakery. There are also mobile snack trucks traveling the base during lunch hours. The Base Restaurant Catering Office can bring everything from full meals to baked potato or sundae bars to work areas.

HILL AFB MUSEUM

DSN: 777-8623

Commercial: (801) 777-8623

On the far north side of the base in building 1919 is Hill AFB's Air Force Museum. It is home to many vintage aircraft displays.
